

Quickstart

- You open files by drag-n-drop in addition to the usual menu and toolbar methods.
- Tap J, K, L to control playback speed and direction. Tap J or L repeatedly to go faster.
- Tap I or O to set the in and out points.
- Press left or right cursor keys to step frame-by-frame.
- Press page up or down to step one second at-a-time.
- Press alt+left or alt+right to jump between start, in, out, and end.
- Version is based on date. You can choose to update whenever you like and keep multiple versions (new versions are available monthly).
